THERE'S MORE TO AIPORTS
THERE'S MORE TO RAVO

RAVO's proven sweeping technology is not only for clean streets, it's for cleaner environments. Our full range of **sub-compact**, **compact** and **maxi-compact sweepers** is ideal for keeping **Airport Facilities clean and safe for efficient operations.** Whether it's **terminal access roads**, **parking lots**, **service lanes**, aprons or **gate access**, our range is perfect for keeping airports moving.

INDUSTRY-LEADING ELECTRIC MODELS

The first and still the best, the RAVO E2 and R5e are the industry's leading electric sweepers - with autonomy, performance and safety at the core. Our electric product offering is ideal for airports with sustainability targets.

COMPACT & MANOEUVRABLE

RAVO sweepers are designed for tight spaces and high-traffic areas, making them ideal for cleaning airport aprons, service roads, and parking areas.

INTELLIGENT FLEET MONITORING

RAVO's intelligent Data Solutions, including a comprehensive telematics platform, helps operators track performance and maintenance needs, ensuring reliability in demanding airport schedules.

POWERFUL SUCTION PERFORMANCE

Our renowned vacuum suction system, combined with a unique brush setup, ensures efficient debris removal, which is critical in preventing Foreign Object Debris (FOD) on service lanes and taxiways.

OUR PRODUCT RANGE

RAVO R1

A dedicated sub-compact sweeper, delivering high performance in hard-to-reach areas. The R1's articulated configuration makes it ideal for sweeping in tight areas, such as inside hangers and around parked aircraft.

RAVO R2

A compact powerhouse, the RAVO R2 crushes any debris in its way. With 2- and 4- wheel sweeping, narrow body and tight turning radius, the R2 is ideal for pedestrian walkways and parking lots.

RAVO R5

With a class-leading turning radius and high compaction rate, there is no job too tough for the RAVO R5. Our proven maxi-compact design is trusted by customers across the world.

RAVO E2

Ideal for airports seeking a sustainable, fully electric sweeper that operates around the clock! The award-winning RAVO E2 delivers exceptional working autonomy, with no environmental impact.

RAVO R5e

The RAVO R5e offers exceptional hopper capacity and fully electric performance - designed to deliver exceptional on-shift endurance. The electric solution for a wide range of cleansing operations.
